

ABSTRACT

Ink composition, in particular for continuous deflected ink jet printing comprising:

- 5 - a binder
 - one or several dyes and / or pigments, and
 - a solvent

in which the said solvent comprises at least 10 % by weight - in relation to the total weight of the ink - of
10 1,3-dioxolane, at least 5 % by weight of one or several other organic compounds that can dissociate the ionisable species in the ink, and less than 5 % water.
